

Side Arm Umbrellas

Unique Protection & Flexibility

Shades of Comfort offer a wide variety of square and rectangular side arm Umbrellas in a range of sizes from 2.5m to 4.0m Square.

With many styles and colours to choose from these side arm umbrellas are a perfect solution in providing a comfortable and stylish shelter for your customers.

Like other large umbrellas they can be supplied on a portable base or fixed into the ground also having the flexibility of being combined with suitable heat and lighting options.

Case Study

David Lloyd Leisure

The David Lloyd Leisure Group is currently Europe's largest racquets, health and fitness operator with 78 clubs in the UK and a further 10 sites across Europe.

In 2008 they undertook the refurbishment to many of their sites including the addition of a new look outdoor area for its members.

Many of these sites have seen our first introduction of the Side arm umbrellas equipped with both heat and light becoming the central focus point of their outdoor areas.
