

Wooden Shelters

All year round extension to your business

Inspired by the South African lifestyle - modelled on their traditional outdoor structures.

Our outdoor wooden sheltered living spaces are unique, practical and visually stunning.

Designed to offer a real opportunity to spend more time outdoors, these structures provide the ability to create wonderful outdoor areas such as smoking solutions or a complete outdoor alfresco dining solution.

The finishing of the production has been generated from South Africa to add to the strength of the aura that is created.

Benefits include:

- > 4 piece galvanised steel roof with thatch tiling
- > Timber frame
- > Strong yet flexible design styles

Fitting Options

Ground Fixed

Heating and lighting

Furniture

The 3.2m thatched gazebo

This was designed to accommodate a matching hexagonal table that can comfortably seat 6 to 8 people. As these shelters are obviously very versatile, a number of these have been installed where the client has used them alongside their own furniture, demonstrating the versatility of the product.

Although this is our second smallest building its proportions ensure it compliments any size of outdoor area and as you will discover – it is extremely competitively priced.
